

ENVIRONMENTAL POLICY

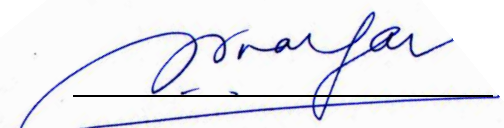

Since 1970, Judricks Enterprises Limited (JEL) has been specializing in custom machining and the manufacture of automotive parts for diesel and gas engines for reputed customers. Products or parts manufactured include connecting rod assemblies, hub yokes, bearing caps and other critical parts in the Standard Industry Classification: 3714 – Motor Vehicle Parts and Accessories.

The JEL Environmental Policy is to be a responsible corporate citizen in protecting the environment. JEL is committed to complying with accepted environmental practices, including the commitment to meet or exceed applicable legal and other requirements, to strive for continual improvement in our Environmental Management System, and to minimize the creation of wastes and pollution. JEL will, therefore, manage its processes, materials and resources in order to reduce the environmental impacts associated with our chosen line of business.

Judricks Enterprises Limited pledges to implement, operate and maintain the ISO 14001:2004 Environmental Management System to further enhance our environmental performance. Our main objectives are to:

- *Reduce the amount of chemical waste (coolant, lubricant, etc.) within our facility*
- *Reduce the amount of leachate (machine and metal chip) into the local environment*
- *Improve the efficiency of energy usage*
- *Reduce the amount of landfill waste we generate by incorporating a recycling program*

This policy will be communicated to all parties interested in the performance of our environmental management system.

Inder K. Nayar
President
